

Online Bachelor of Science in Psychology

Degree Completion Program

Overview

A Bachelor of Science degree in Psychology will help prepare you for occupations that require a solid understanding of human behavior, and provide a basis for personal growth. Students will develop a broad understanding of human behavior, as well as research skills through learning about biological, developmental, social, and cognitive and learning processes.

Quick Info

- Average time to completion is 2 years. The program is self-paced and time to degree can vary.
- Courses are accelerated, 8 weeks long in Fall and Spring, 6 weeks long in Summer. There are two sessions each semester, so students can take a full load (12 units) by enrolling in 2 classes at a time.
- Course fees are currently \$489/unit, so the average cost for the degree is \$24,450. Please note that all fees are subject to change, as CCE is self-supported.
- Some students in the program go on to graduate studies in psychology for degrees like MA, MS, PsyD, or EdD. Some advanced degrees do require in-person participation and research, which are not offered through the online program. If you have questions, please reach out to the program coordinator.

Program Benefits

Growth and Graduate School

Earning a bachelor's degree in psychology can open up opportunities for career advancement. Many students in the program go on to graduate school in psychology.

Flexibility

Students are able to fit school into their already busy schedules through fully online, asynchronous courses.

Support

Students have regular support from a dedicated academic advisor and program coordinator. Throughout the entire process—from admission to graduation—we are here for you.

Academic Excellence

Graduates of the online Bachelor of Science in Psychology will earn their degree from Sacramento State, the same degree students receive when completing their courses in the traditional in-person format.

"My students have been grateful for the opportunity to finish their degree. They're always able to contribute to the course discussions in really interesting ways, based on the wealth of work experience they have."

— Professor Rachel A. August

Do you meet these requirements?

We'll work with you to find the best fit for completing your degree.

- Must have completed the following major courses or an approved course equivalent with a C- or better prior to applying:
 - ✓ PSYC 2: Introductory Psychology (or equivalent)
 - ✓ PSYC 8: Research Methods in Psychology (or equivalent)
 - ✓ PSYC 9: Introductory Statistics for Psychology (or equivalent)
 - ✓ Completion of GE areas A1, A2, A3, and B4 with a C- or better
 - * *We strongly recommended also taking CHAD 30 Human Lifespan Development (or equivalent)*
- Must have at least 60 CSU transferable units
- Must have a cumulative GPA of 2.5 in all CSU transferable coursework
- If local resident (living within 25 miles of Sac State) or current Sac State student, must obtain approval from the Psychology department to join the program

"Students are very encouraging of each other in online discussions, and it is great to see all the different perspectives they bring to the discussion topics."

— Professor Emily A Wickelgren
